

Subject Index to Volume 13

A

- Acclimation; Acclimatization: *see* specific subject and site
- Acetylcholine
 injection, drinking and pressor responses after, subformal organ, R508
 interaction with norepinephrine, neural control of insulin secretion, R629
- Acid-base balance, base excess curve, theoretical analysis, R492
- Acidemia, chemoreceptor response, aortic and carotid, R652
- Acidosis
 metabolic, aortic and carotid chemoreceptor response, R652
 respiratory, cerebrospinal fluid production and, R224
- Adenosine monophosphate, cyclic, salt absorption and, rectal (locust), R131
- Adenosine triphosphate, hypoxia effects, embryo (chicken), R733
- Adenosine triphosphate-magnesium chloride, infusion, hepatic ischemia, R695
- Adipocytes, sucrose, caffeine, and cola effects, R500
- Adipose tissue, cellularity, sucrose, caffeine, and cola effects, R500
- Adipsia, kainic acid lesioning, dorsomedial hypothalamus, R389
- Adrenalectomy
 angiotensinogen regulation, cerebrospinal fluid and plasma, R466
 catecholamine release, fastigial stimulation and, R801
 sodium retention and salt appetite, deoxycorticosterone effects (hamster), R78
- Adrenal gland
 function, paraventricular nucleus region control of, R363
 responses, converting enzyme inhibition, fetal and newborn (sheep), R249
- Adrenal medulla
 catecholamines, fastigial stimulation and, R801
 2-deoxyglucose injection, recovery from, R383
- Adrenergic receptors: *see* Receptors
- Adrenergic stimulation, tonin and kallikrein release, submaxillary gland, R228
- Adrenocorticotrophic hormone, paraventricular nucleus region, pituitary-adrenal function and, R363
- Adrenocorticotropin, cortisol secretion cycle and, hunger (rat, guinea pig, monkey), R514
- Aerobic capacity: *see also* Exercise responses, exercise (crab), R530
 thyroxine supplementation effects (lizard), R659
- Aerobic responses, exercise (crab), R530
- Afferent activity, suppression of, hepatic vagus nerve, D-glucose anomers (guinea pig), R611
- Afferent nerve, cardiovascular pathways, response of amygdala, R646
- Alanine, transport, hepatopancreatic (lobster), R150

- Aldosterone
 converting enzyme inhibition, fetal and newborn (sheep), R249
 sodium kinetics and, arterial wall (porcine), R553
- Alkaline phosphatase, reabsorption, renal brush border membrane transport relations, R216
- Allometry, osmotic regulation, mammals and birds, R601
- Amino acids
 catabolism, liver (catfish), R709
 transport (muscle), R832
- γ -Aminobutyric acid, baroreceptor interactions, sympathetic pathways, R455
- Ammonia, permeability, mitochondrial, liver (catfish), R709
- Ammoniogenesis, mitochondrial, liver (catfish), R709
- Amygdala, response, stimulation of buffer nerves, R646
- Angiotensin, central action of, enkephalin inhibition, brain ventricles, R522
- Angiotensin II
 bradykinin and, interactions between, R285
 central injection effects, catecholamine activity, brain, R257
 drinking and, water deprivation-induced, R244
 forebrain lesion effects, R45
- Angiotensinogen
 plasma, regulation of, R466
 regulation, cerebrospinal fluid and plasma, R466
- Anoxia, tolerance, metabolic basis of, heart (hagfish), R356
- Antidiuretic hormone
 basal, suppressed release, cyclooxygenase inhibition and, awake state, R487
 secretion, caval constriction and, R850
- Antipyretics, cerebrospinal fluid, pyrogen fever, R785
- Aortic body, ventilatory reflexes, chemoreceptors, R119
- Aortic depressor nerve, stimulation, response of amygdala, R646
- Aphagia, kainic acid lesioning, dorsomedial hypothalamus, R389
- Area postrema, solitary tract lesions, body weight and, R577
- Arterial pressure: *see* Pressure
- Arterial wall, aldosterone effects, sodium kinetics (porcine), R553
- ATP: *see* Adenosine triphosphate
- ATPase: *see* Adenosine triphosphatase; Potassium-ATPase; Sodium-potassium-ATPase
- Atrioventricular conduction, cervical vagal stimulation effects (chicken), R235
- Atropine
 acetylcholine action, subformal organ, R508
 vagal stimulation after, heart rate and atrioventricular conduction and (chicken), R235
- Autonomic nervous system
 dietary sodium restriction effects, heart rate control, R264
 insulin secretion, neural control of, R629
 islet neurotransmitter sensitivity, ventro-

medial hypothalamic lesion, R635

- Awake state
 cyclooxygenase inhibition, basal antidiuretic hormone release during, R487
 water deprivation and, vasopressin regulation of blood pressure, R74
- Azide, tolerance, cardiac muscle (hagfish), R356

B

- Baroreceptor reflexes: *see* Reflexes
- Baroreceptors: *see* Receptors
- Baroreflex: *see* Reflexes
- Base excess curve, theoretical analysis of, R492
- Behavior
 physiological conflict, fatigue vs. cold discomfort, R621
 salt appetite, cerebrospinal fluid and blood sodium effects (sheep), R810
- Bicarbonate
 standard, blood buffer system, R492
 system, ascites tumor cells, R84
- Biological clock, hypothermia and (hamster), R607
- Bladder: *see* Urinary bladder
- Blockade, ganglionic, catecholamine secretion mechanisms, R641
- Blood
 constituents: *see* specific constituent volume: *see* Volume
- Blood buffer system, metabolic indices, theoretical analysis, R492
- Blood flow
 hepatic, adenosine triphosphate-magnesium chloride effects, R695
 iliac, plasma renin activity and (marmot), R823
 regional, brain, cerebrospinal fluid production and, R224
- renal
 converting enzyme inhibition and, fetal and newborn (sheep), R249
 plasma renin activity and (marmot), R823
- umbilical, maternal hyperglycemia (sheep), R882
- uterine, weight of newborn and (sheep), R31
- Blood pressure: *see also* Pressure
 angiotensin and bradykinin, interactions between, R285
 chronic saline ingestion, hypothalamic lesion effects, R751
 converting enzyme inhibition and, fetal and newborn (sheep), R249
 enkephalin inhibition, angiotensin action, brain ventricles, R522
 feeding and, humoral and cardiovascular responses to (pig), R279
 plasma renin activity and (marmot), R823
 reflex control, heart (turtle), R544
 vasopressin effects, water deprivation, awake state, R74
- Body
 composition, weightlessness effects, R332
 fluid: *see* Fluid
 neutron activation, measurement of extracellular space, R36

Body (*continued*)

- size, osmotic regulation and, mammals and birds, R601
- surface, sodium-chloride absorption (frog), R429
- water: *see* Water
- weight: *see* Weight
- Bohr effect, oxygen transport, hypoxia effects, embryo (chicken), R733
- Bone
 - cortical, spaceflight effects, R315
 - non-weight-bearing, spaceflight effects, R319
 - periosteal, formation, spaceflight effects, R305
 - resorption, mineral excretion and, spaceflight, R327
 - trabecular, spaceflight effects, R310, R315
- Bradykinin, angiotensin II and, interactions between, R285
- Brain
 - catecholamine activity, angiotensin II injection effects, R257
 - lesions
 - angiotensin II and, R45
 - pituitary-adrenal function and, R363
 - oxygen diffusion in, R15
 - regional blood flow, cerebrospinal fluid production and, R224
 - renin-angiotensin system, regulation, R466
 - serotonin metabolism, model, R193, R206
 - temperature, REM sleep, R114
 - water and ions, hyponatremia, R724
- Bromide, exchangeable, measurement by neutron activation, R36
- Brown fat
 - diet-induced obesity, altered sympathetic activity, R347
 - metabolic organization, normal and dystrophic (hamster), R407
- Brush border membrane, transport, renal phosphate reabsorption relations, R216
- Brush border membrane vesicles, transport, renal phosphate reabsorption relations, R216
- Buffer nerves, stimulation, response of amygdala, R646

C

- Caffeine, metabolism and, R500
- Calcium
 - tracer, bone resorption and mineral excretion, spaceflight, R327
 - vasopressin release and, organ culture, R703
- Calcium ionophore, vasopressin release and, organ culture, R703
- Calcium membrane blocker, vasopressin release and, organ culture, R703
- Calcium salts, lumbar vertebrae, spaceflight effects, R315
- cAMP: *see* Adenosine monophosphate, cyclic
- Cancer, low-dose radiation toxicity and, R7
- Cancer cells, free fatty acid oxidation, low oxygen tension, R84
- Captopril
 - angiotensinogen regulation, cerebrospinal fluid and plasma, R466
 - peptide interactions and, R285
 - water deprivation-induced drinking, angiotensin II effects, R244

- Carbon dioxide
 - molecular, aortic and carotid chemoreceptors, R652
 - system, ascites tumor cells, R84
- Cardiac muscle: *see* Muscle, heart
- Cardiac output
 - plasma renin activity and (marmot), R823
 - vasopressin effects, water deprivation, awake state, R74
- Cardiovascular regulation, reflex control, heart (turtle), R544
- Cardiovascular responses
 - chronic saline ingestion, hypothalamic lesion effects, R751
 - feeding (pig), R279
 - head immersion, venoconstriction effects (duck), R292
- Carotid body, ventilatory reflexes, chemoreceptors, R119
- Carotid sinus nerve, stimulation, response of amygdala, R646
- Catecholamines
 - activity, brain, angiotensin II injection effects, R257
 - adrenomedullary, fastigial stimulation and, R801
 - arterial pressure, control of (sea snake), R66
 - calorigenic effects (bird), R758
 - gluconeogenesis, experimental sepsis, R794
 - secretion, dual mechanisms for (dogfish), R641
- Celiac branch, nervous pathway, electrophysiological study, R888
- Cells: *see* specific subject and site
- Cell suspensions, hepatopancreatic, alanine transport by (lobster), R150
- Central nervous system, lesions, sodium excretion and, R815
- Cerebellum, catecholamine release, fastigial stimulation and, R801
- Cerebral ventricles
 - angiotensin, enkephalin inhibition of, R522
 - anteroventral third lesions
 - natriuresis to volume expansion, R51
 - sodium excretion and, R815
- perfusion, cerebrospinal fluid production and, R224
- Cerebrospinal fluid
 - angiotensinogen, regulation of, R466
 - production, hypercapnia and cerebral perfusion pressure effects, R224
 - sodium, salt appetite and (sheep), R810
 - water and ions, hyponatremia, R724
- Cerebrum, 2-deoxyglucose injection, recovery from, R383
- Chemoreceptors: *see* Receptors
- Chemosensory drive, ventilatory reflexes, R119
- Chemosympathectomy, catecholamine release, fastigial stimulation and, R801
- Chloride
 - body, measurement by neutron activation, R36
 - transport
 - intestinal (mollusk), R143
 - rectal (locust), R131
- p-Chlorophenylalanine, thermoregulation and, R299
- Cholecystokinin, modulation of secretion, food intake response, R676
- Chondroitin sulfate, lumbar vertebrae, spaceflight effects, R315

- Choroid plexus
 - cerebrospinal fluid production and, R224
 - ionic distribution, salivary glands (cockroach), R176
- Chromatography
 - high-performance liquid, amino acid uptake (mussels), R832
 - thin-layer, human vascular tissue, R839
- Chromium, trace element, kinetics in human body, model, R445
- Circadian rhythms: *see* Rhythms
- Citrate synthase
 - muscle and brown fat, normal and dystrophic (hamster), R407
 - skeletal muscle (anuran), R558
 - thyroxine effects, metabolic rate and aerobic capacity (lizard), R659
- Cola beverage, metabolism and, R500
- Cold
 - acclimation, thermoregulatory heat production in (pig), R273
 - discomfort, fatigue and, physiological conflict, R621
 - resistance: *see* Resistance
- Collagen
 - lumbar vertebrae, spaceflight effects, R315
 - non-weight-bearing bones, spaceflight effects, R319
- Comparative physiology, alanine transport, hepatopancreatic (lobster), R150
- Converting enzymes, inhibition, renal and adrenal responses to, fetal and newborn (sheep), R249
- Corticosteroids, blood pressure regulation and, water deprivation, awake state, R74
- Corticosterone, weaning and, R537
- Corticotropin-releasing factor, paraventricular nucleus region, pituitary-adrenal function, R363
- Cortisol
 - feeding and, humoral and cardiovascular responses to (pig), R279
 - secretion cycle, origin of (rat, guinea pig, monkey), R514
- Cyanide, tolerance, cardiac muscle (hagfish), R356
- Cyclooxygenase, inhibition, basal antidiuretic hormone release during, awake state, R487
- Cytochrome oxidase, sucrose, caffeine, and cola effects, R500

D

- Dehydration, thermoregulatory water loss and, exercise, R516
- Deoxycorticosterone, sodium retention, salt appetite and (hamster), R78
- 2-Deoxyglucose, injection, cerebral and peripheral effects, R383
- 2-Deoxy-D-glucose, glucoprivic feeding, kainic acid lesioning, dorsomedial hypothalamus, R389
- Development: *see also* Growth
- diet-induced obesity, altered sympathetic activity during, R347
- Diabetes
 - streptozotocin-induced, urinary bladder function and, R106
 - trace element chromium, kinetics in human body, R445
- Diaphysis, periosteal bone formation and, spaceflight, R305
- Diet: *see* Feeding
- Dihydroalprenolol, endotoxin shock effects, liver, R718

- Dimensional analysis, data extrapolation, R591
- Diuresis
prolonged, urinary bladder function and, R106
volume expansion, preoptic-hypothalamic periventricular lesions, R51
- Diving: *see also* Immersion
venoconstriction and (duck), R292
- DOCA: *see* Deoxycorticosterone
- Dopamine
activity, brain, angiotensin II injection effects, R257
stimulation, salivary gland secretion (cockroach), R176
- Dopamine- β -hydroxylase, diet-induced obesity, altered sympathetic activity, R347
- Dose-response relations, low-dose radiation toxicity, R7
- Drinking
angiotensin and bradykinin interactions between, R285
water deprivation-induced, angiotensin II effects R244
enkephalin inhibition, angiotensin action, brain ventricles, R522
pressor responses and, acetylcholine injection, subfornical organ, R508
secretion of vasopressin and, caval constriction, R850
thirst, solute excretion and, control of body fluid, R23
thirst and fluid consumption, ethanol effects, R568
- Dystrophy, metabolic organization, muscle and brown fat (hamster), R407

E

- Edema
brain, water and ions during, R724
formation, caval constriction and, R850
- Electrochemical gradient, chloride transport, intestinal (mollusk), R143
- Electrodes, ion-sensitive, salt absorption, rectal (locust), R131
- Electrophysiological studies
chloride transport, intestinal (mollusk), R143
nervous pathway, splanchnic to vagus nerve, R888
- Embryo, hypoxic, oxygen transport in (chicken), R733
- Endotoxin shock: *see* Shock
- Endotoxin, cerebrospinal fluid, pyrogen fever, R785
- Energy metabolism, rate equation, fasting and postabsorption, R764
- Enkephalin, inhibition, angiotensin action, brain ventricles, R522
- Entrainment, nocturnal, pinealectomy, circadian pacemakers and (lizard), R857
- Enzymes: *see also* specific enzyme
activities, tolerance to anoxia, cardiac muscle (hagfish), R356
muscle and brown fat, normal and dystrophic (hamster), R407
- Epidermal growth factor, submandibular sialadenectomy and, male, R41
- Epinephrine
adrenomedullary, fastigial stimulation and, R801
calorigenic effects (bird), R758
injection, cerebral and peripheral effects, R383
- Epithelium: *see also* specific subject and

- site*
alanine transport, invertebrate (lobster), R150
chemiosmotic potassium ion pump of (insect), R163
nystatin studies of transport, larva (frog), R58
sodium-chloride absorption (frog), R429
transport, invertebrate, R127
water vapor absorption in (mealworms), R187
- Estradiol, newborn weight and (sheep), R31
- Estrone, newborn weight and (sheep), R31
- Estrous cycle, continuous light effects, locomotor activity rhythm, R573
- Ethanol, ingestion, thirst and fluid consumption and, R568
- Exercise
aerobic response to (crab), R530
endurance training, norepinephrine and, liver, R845
hypoglycemia and, liver norepinephrine, R845
perceived rate, fatigue vs. cold discomfort, R621
thermoregulatory water loss, dehydration and hyperosmolality effects, R516
wheel-running, circadian control, sex differences (hamster), R93
- Extracellular space, measurement, total body neutron activation, R36

F

- Fastigial nucleus, stimulation, adrenomedullary catecholamine release, R801
- Fasting
cortisol secretion cycle, origin of (rat, guinea pig, monkey), R514
kainic acid lesioning, dorsomedial hypothalamus, R389
ketone-glucose interaction and (sheep), R667
metabolic response, genetic obesity, R615
postabsorption and, energy metabolism rate equation, R764
- Fat, trabecular bone, spaceflight effects, R310
- Fatigue, cold discomfort and, physiological conflict, R621
- Fatty acids
free, oxidation, ascites tumor cells, R84
metabolism
ascites tumor cells, R84
genetic obesity effects, liver, R400
- Feeding
area postrema-solitary nucleus lesions, body weight and, R577
correlates, humoral and cardiovascular (pig), R279
2-deoxyglucose injection and, R383
diet, composition, altered sympathetic activity and, R347
dietary sodium restriction, heart rate control and, R264
diet-induced obesity, altered sympathetic activity during, R347
glucoprivic, kainic acid lesioning, dorsomedial hypothalamus, R389
hunger, salt appetite, cerebrospinal fluid and blood sodium effects (sheep), R810
hunger mechanism, cortisol secretion cycle, origin of (rat, guinea pig, monkey), R514

- islet neurotransmitter sensitivity, ventromedial hypothalamic lesion, R635
- ketone-glucose interaction and (sheep), R667
- liquid meals, gastric emptying and, R865
- metabolic response, genetic obesity, R615
- peripheral factors and, insulin-induced hypoglycemia, R374
- postgastric satiety, R872
- response, cholecystokinin secretion, R676
- Fertility, submandibular sialadenectomy effects, male, R41
- Fetus: *see also* Placenta
converting enzyme inhibition, renal and adrenal responses (sheep), R249
- Fever
pyrogen, prostaglandin E_2 and thromboxane B_2 in cerebrospinal fluid, R785
trace metal relations, infection, R368
- Fluid
body
control of, thirst and solute excretion, R23
volume, forebrain lesion and angiotensin II effects, R45
cerebrospinal: *see* Cerebrospinal fluid
consumption, thirst and, ethanol effects, R568
extracellular, brain, regulation, hyponatremia, R724
- Fluorescences, oxygen diffusion, brain slices, R15
- Food intake: *see* Feeding
- Forebrain, lesions, angiotensin II and, R45
- Frank-Starling mechanism, venoconstriction, diving (duck), R292
- Fructose, hypoglycemia, insulin-induced, R374
- Furosemide, plasma renin activity and (marmot), R823

G

- Ganglionic blockade: *see* Blockade
- Gas, exchange, organs, reflex interactions between, larval (bullfrog), R770
- Gastric emptying
feeding and postgastric satiety, R872
nutrient density, liquid meals and, R865
- Gibbs-Helmholtz thermodynamics, living matter, R743
- Glucagon
calorigenic effects (bird), R758
exercise effects, liver, R845
fatty acid metabolism and, genetic obesity effects, liver, R400
- Glucocorticogenesis, lactate, experimental sepsis, R794
- Glucoprivation, area postrema-solitary nucleus lesions, body weight and, R577
- Glucose
dyshomeostasis, liver, R718
extraction, umbilical, maternal hyperglycemia (sheep), R882
feeding and, humoral and cardiovascular responses to (pig), R279
insulin secretion, neural control of, R629
ketone interaction, feeding, fasting, and fast-infection (sheep), R667
production, lactate, experimental sepsis, R794
- D-Glucose anomers, afferent activity suppression, hepatic vagus nerve (guinea pig), R611

- Glutamate, deamination, mitochondrial, liver (catfish), R709
 Glycogenolysis, liver, exercise effects, R845
 Gravitational physiology, R303
 weightlessness effects, body composition, R332
 Growth: *see also* Development
 depressed, kainic acid lesioning, dorso-medial hypothalamus, R389
 metabolic alterations and, submandibular sialadenectomy effects, male, R41

H

- Heart**
 failure, congestive, caval constriction and, R850
 reflex control, arterial baroreceptor (turtle), R544
Heart rate
 cervical vagal stimulation effects (chicken), R235
 control, dietary sodium restriction effects, R264
 fastigial stimulation, catecholamine release, R801
 saline ingestion, hypothalamic lesions and, R751
Heat
 acclimation, thermoregulatory heat production in (pig), R273
 loss
 p-chlorophenylalanine effects, R299
 heating rate control of, tail, R778
 thermoregulatory production, thermogenesis in (pig), R273
Hematocrit, deoxycorticosterone effects (hamster), R78
Hemochromatosis, trace element chromium, kinetics in human body, R445
Hemoglobin, pattern, hypoxia effects, embryo (chicken), R733
Hemorrhage, control (sea snake), R66
Hepatic branch, nervous pathway, electrophysiological study, R888
Hepatocytes, fatty acid metabolism, genetic obesity effects, R400
Hibernation, thermoregulation during, R114
Hormonal influences, weaning, R537
Hormones: *see also* specific hormone
 maternal, newborn weight relations (sheep), R31
Humoral responses, feeding (pig), R279
Hunger: *see* Feeding
Huxley's allometric equation, biological similarity, R589
 β -Hydroxyacyl CoA dehydrogenase, muscle and brown fat, normal and dystrophic (hamster), R407
 β -Hydroxybutyrate, ketone-glucose interaction, feeding and fasting (sheep), R667
 5-Hydroxyindole acetic acid, heterogeneous distribution, brain, model, R206
Hypercapnia, cerebral perfusion pressure and, cerebrospinal fluid production, R224
Hyperglycemia, maternal, umbilical glucose and lactate extraction (sheep), R882
Hyperinsulinemia, macronutrient self-selection, hypothalamic obesity, R686
Hyperosmolality, thermoregulatory water

- loss and, exercise, R516
Hypertension
 aldosterone effects, arterial wall (porcine), R553
 forebrain lesions and, R45
 salt-induced, hypothalamic lesions and, R751
Hypertonicity, thirst and solute excretion, control of body fluid, R23
Hypoglycemia, insulin-induced, recovery from, food intake and peripheral factors, R374
Hyponatremia, dilutional and isosmotic, water and ions during, brain and cerebrospinal fluid, R724
Hypothalamic lesion
 cardiovascular responses, chronic saline ingestion, R751
 sodium excretion following, R815
 ventromedial, islet neurotransmitter sensitivity following, R635
Hypothalamoneurohypophyseal complex, vasopressin release, calcium effects, organ culture, R703
Hypothalamus
 dorsomedial, kainic lesioning of, R389
 paraventricular, macronutrient self-selection, R686
 ventromedial
 lesions, cardiovascular responses to saline ingestion, R751
 macronutrient self-selection, R686
Hypothermia
 biological clock and (hamster), R607
 oxygen diffusion and, brain slices, R15
 Hypothyroidism, weaning and, R537
Hypoxia
 lung-gill interactions, larval (bullfrog), R770
 oxygen transport and, embryo (chicken), R733

I

- Imidazole, cerebrospinal fluid, pyrogen fever, R785**
Immersion: *see also* Diving
 central volume expansion, renal response to, night, R481
 head, venoconstriction effects (duck), R292
Incisions
 spaceflight effects, R319
 weaning control, R537
Infant: *see* Newborn
Infection
 fever, trace metal relations, R368
 ketone-glucose interaction (sheep), R667
Insulin
 exercise and effects, liver, R845
 feeding and, humoral and cardiovascular responses to (pig), R279
 glucose-induced secretion, ventromedial hypothalamic lesion, R635
 hypoglycemia, food intake and peripheral factors, R374
 secretion, neural control of, R629
Intestine, small, feeding and postgastric satiety, R872
Intestines
 chloride transport, electrophysiology of (mollusk), R143
 sodium ion absorption (sea hare), R412
 Iodoacetate, poisoning, tolerance to anoxia, heart (hagfish), R356

- Ions**
 active transport, skin (frog), R58, R429
 brain and cerebrospinal fluid, hyponatremia, R724
 distribution, salivary glands (cockroach), R176
Iron, fever relations, infection, R368
Ischemia, hepatic, adenosine triphosphate-magnesium chloride infusion effects, R695
K
Kainic acid, lesioning, dorsomedial hypothalamus, R389
Kaliuresis, central volume expansion, renal response to, night, R481
Kallikrein
 converting enzyme inhibition, fetal and newborn (sheep), R249
 release, submaxillary gland, R228
Keratosulfate, lumbar vertebrae, space-flight effects, R315
Ketogenesis, genetic obesity effects, liver, R400
Ketone, glucose interaction, feeding, fasting, and fast-infection (sheep), R667
Kidney
 brush border: *see* Brush border
 function, osmotic regulation, mammals and birds, R601
 phosphate reabsorption, brush border membrane transport relations, R216
 response
 central volume expansion, night, R481
 converting enzyme inhibition, fetal and newborn (sheep), R249
 size, osmotic regulation and, mammals and birds, R601
Kinetics: *see* specific subject and site
L
Lactase, weaning and, R537
Lactate
 extraction, umbilical, maternal hyperglycemia (sheep), R882
 glucose production from, experimental sepsis, R794
Lactate dehydrogenase, skeletal muscle (anuran), R558
Lactic acid, chemoreceptor response, aortic and carotid, R652
Light, continuous, locomotor activity rhythm and, R573
Linoleate, oxidation, cancer cells, R84
Lipids, free fatty acid oxidation, low oxygen tension, R84
Lipogenesis, genetic obesity effects, liver, R400
Liver
 cells: *see* Hepatocytes
 endotoxic shock effects, β -adrenergic receptors, R718
 fatty acid metabolism, genetic obesity effects, R400
 gluconeogenesis, experimental sepsis, R794
 glucose sensor, afferent activity of vagus nerve and (guinea pig), R611
 ischemic, adenosine triphosphate-magnesium chloride infusion effects, R695
 mitochondrial ammoniogenesis (catfish), R709
 norepinephrine, exercise and hypoglycemia effects, R845
 ultrastructure, adenosine triphosphate-magnesium chloride effects, R695

Load, volume, plasma renin activity and (marmot), R823
 Locomotion, aerobic response, exercise (crab), R530
 Locomotor activity, circadian control during, sex differences (hamster), R93
 Lung, mechanoreceptors (lungfish), R418
 Lung-gill interactions, reflex, larval (bullfrog), R770

M

Macronutrient, self-selection, hypothalamic obesity, R686
 Mandibles, spaceflight effects, R319
 Mannitol, salt appetite, cerebrospinal fluid and blood sodium effects (sheep), R810
 Meals: *see* Feeding
 Mechanoreceptors: *see* Receptors
 Meclofenamate, antidiuretic hormone release, awake state, R487
 Metabolic acidosis: *see* Acidosis
 Metabolic alterations, growth and, submandibular sialadenectomy effects, male, R41
 Metabolic organization, muscle and brown fat, normal and dystrophic (hamster), R407
 Metabolic rate, thyroxine supplementation effects (lizard), R659
 Metabolic response, fasting and refeeding, genetic obesity, R615
 Metabolism: *see also* specific subject and site
 carnivorous (catfish), R709
 metabolites, tolerance to anoxia, cardiac muscle (hagfish), R356
 metaphysis, trabecular bone, spaceflight effects, R310
 microanalysis, ionic distribution, salivary glands (cockroach), R176
 microwave radiation, heat loss and, tail, R778
 midgut, potassium ion pump, chemiosmotic (insect), R163
 Mineral
 excretion, bone resorption and, spaceflight, R327
 non-weight-bearing bones, spaceflight effects, R319
 Mitochondria
 ammoniaogenesis, liver (catfish), R709
 function, adenosine triphosphate-magnesium chloride effects, hepatic ischemia, R695
 Models
 aldosterone effects, arterial wall (porcine), R553
 blood buffer system, theoretical analysis, R492
 mathematical
 linoleate and palmitate oxidation, cancer cells, R84
 serotonin metabolism, brain, R193, R206
 similarity principles, data extrapolation, R591
 trace element chromium, kinetics in human body, R445
 Multicompartmental analysis, linoleate and palmitate oxidation, cancer cells, R84
 Muscle, metabolic organization, normal and dystrophic (hamster), R407
 Muscle, heart

metabolic organization, normal and dystrophic (hamster), R407
 metabolism, tolerance to anoxia (hagfish), R356
 Muscle, skeletal
 contraction (anuran), R558
 metabolic organization, normal and dystrophic (hamster), R407
 properties of (anuran), R558
 Musculoskeletal system, weightlessness effects, spaceflight, R332

N

Natriuresis
 sodium excretion, central nervous system lesions and, R815
 volume-expanded, neural substrates of, R51
 Neonate: *see* Newborn
 Nephrectomy, angiotensinogen regulation, cerebrospinal fluid and plasma, R466
 Nerve growth factor, submandibular sialadenectomy and, male, R41
 Neural control, insulin secretion, autonomic neurotransmitter interaction, R629
 Neuropeptide hormones, salt absorption and, rectal (locust), R131
 Neurotransmitters
 autonomic, interaction, neural control of insulin secretion, R629
 sensitivity, islet, ventromedial hypothalamic lesion, R635
 Newborn
 body weight, maternal hormone effects (sheep), R31
 converting enzyme inhibition, renal and adrenal responses (sheep), R249
 Norepinephrine
 activity, brain, angiotensin II injection effects, R257
 adrenomedullary, fastigial stimulation and, R801
 calorigenic effects (bird), R758
 decrease, exercise and hypoglycemia effects, liver, R845
 interaction with acetylcholine, neural control of insulin secretion, R629
 metabolism, diet-induced obesity, R347
 Nucleus
 caudal medial, solitary tract lesions, body weight and, R577
 fastigial: *see* Fastigial nucleus
 paraventricular: *see* Paraventricular nucleus
 suprachiasmatic: *see* Suprachiasmatic nucleus
 Nutrients, density, gastric emptying and, R865
 Nystatin, transport study, skin, larva (frog), R58

O

Obesity
 diet-induced, altered sympathetic activity, R347
 genetic
 fasting and refeeding effects, R615
 fatty acid metabolism and, liver, R400
 hypothalamic, macronutrient self-selection, R686
 islet neurotransmitter sensitivity, ventromedial hypothalamic lesion, R635

sucrose, caffeine, and cola effects, metabolism, R500
 OKY 1581, thromboxane and prostacyclin production, human vascular tissue, R439
 Opiates, receptors: *see* Receptors
 Oscillators, continuous light effects, locomotor activity rhythm, R573
 Osmolality, water deprivation-induced drinking, angiotensin II effects, R244
 Osmoreceptors: *see* Receptors
 Osmoregulation, thirst, solute excretion and, R23
 Osmotic regulation, scaling, mammals and birds, R601
 Osmotic thirst, solute excretion and, control of body fluid, R23
 Osteoblasts, trabecular bone, spaceflight effects, R310
 Osteoclasts, trabecular bone, spaceflight effects, R310
 Oxidation, free fatty acids, ascites tumor cells, R84
 Oxygen
 affinity, hypoxia effects, embryo (chicken), R733
 consumption
 exercise (crab), R530
 thyroxine supplementation effects (lizard), R659
 diffusion, brain slices, R15
 tension
 low, oxidation of ascites tumor cells, R84
 vascular, cardiac muscle (hagfish), R356

P

Pacemaker
 circadian
 pinelectomy and (lizard), R857
 temperature dependence (hamster), R607
 location, cervical vagal stimulation and (chicken), R236
 Palmitate
 oxidation, cancer cells, R84
 partitioning, genetic obesity effects, liver, R400
 Pancreas
 insulin secretion, neural control of, R629
 islet neurotransmitter sensitivity, ventromedial hypothalamic lesion, R635
 Pancreas, cholecystokinin secretion, food intake response, R676
 Pancreatic islets, neurotransmitter sensitivity, ventromedial hypothalamic lesion, R635
 Parasympathetic nerves, vagal stimulation, heart rate and atrioventricular conduction and (chicken), R235
 Parasympathetic nervous system
 dietary sodium restriction effects, heart rate control, R264
 insulin secretion, neural control of, R629
 islet neurotransmitter sensitivity, ventromedial hypothalamic lesion, R635
 Paraventricular nucleus, pituitary-adrenal function and, R363
 Peptides, centrally active, interactions between angiotensin II and bradykinin, R285
 Periosteal bone: *see* Bone
 Periventricular tissue, lesions, sodium excretion and, R815

- Phase-response curves, pinealectomy and, circadian pacemakers, R857
- Phentolamine, acetylcholine action, subfornical organ, R508
- Phenylalanine, cholecystokinin secretion, food intake response, R676
- Phenylephrine, gluconeogenesis, experimental sepsis, R794
- Phosphate, reabsorption, renal, brush border membrane relations and, R216
- Phosphofructokinase, muscle and brown fat, normal and dystrophic (hamster), R407
- Photoperiod, circadian rhythms, lability and diversity of, R338
- Pinealectomy, phase-response curves and, circadian pacemakers (lizard), R857
- Pituitary gland, function, paraventricular nucleus region control of, R363
- Placenta: *see also* Fetus glucose and lactate transfer, maternal hyperglycemia (sheep), R882
- Plasma constituents: *see* specific constituent volume: *see* Volume
- Portasome, potassium ion transport, chemiosmotic (insect), R163
- Posture, tilting, control of arterial pressure (sea snake), R66
- Potassium body, measurement by neutron activation, R36
- concentration, intestine (sea hare), R412
- plasma, deoxycorticosterone effects (hamster), R78
- secretion, mechanisms for, R641
- transport, skin, larva (frog), R58
- Potassium-ATPase, transport, chemiosmotic, epithelia (insect), R163
- Potassium-chloride, reabsorption, rectal (locust), R131
- Potassium ions activities, intestine (sea hare), R412
- pump: *see* Pump
- reabsorption, concentration, water deprivation-induced drinking and, R244
- transport, epithelia (insect), R163
- Pressor response angiotensin, central injection of, R257
- drinking and, acetylcholine injection, subfornical organ, R508
- Pressure: *see also* Blood pressure
- arterial control (sea snake), R66
- fastigial stimulation of catecholamine release, R801
- mean circulatory filling, venoconstriction, diving (duck), R292
- perfusion, cerebral, hypercapnia and, cerebrospinal fluid production, R224
- Progesterone, production, newborn weight and (sheep), R31
- Prostacyclin, production, human vascular tissue, R839
- Prostaglandin E₂, cerebrospinal fluid, pyrogen fever, R785
- Prostaglandins converting enzyme inhibition, fetal and newborn (sheep), R249
- infection, trace metals and fever relations, R368
- involvement, antidiuretic hormone release, awake state, R487
- peptide interactions and, R285
- Pump, potassium ion, chemiosmotic, epithelia (insect), R163
- Pyrenebutyric acid, oxygen diffusion and, brain slices, R15
- Pyrogen, leukocytic, prostaglandins in cerebrospinal fluid, R785
- R**
- Radiation, low-dose, toxicity, R7
- Radioimmunoassay, angiotensinogen regulation, cerebrospinal fluid and plasma, R466
- Receptors β -adrenergic, changes during endotoxin shock, liver, R718
- baroreceptor arterial, reflex control of heart (turtle), R544
- interactions with sympathetic pathways, R455
- chemoreceptors aortic, metabolic acidosis and, R652
- carotid and extracardiac, ventilatory reflexes from, R119
- carotid, metabolic acidosis and, R652
- mechanoreceptors, pulmonary (lungfish), R418
- opiate, angiotensin inhibition, cerebral ventricles, R522
- osmoreceptors, thirst and drinking responses, ethanol, R568
- Rectum, salt absorption in (locust), R131
- Reflexes baroreceptor control of heart (turtle), R544
- interactions with sympathetic pathways, R455
- baroreflexes, control of arterial pressure (sea snake), R66
- chemoreflexes, carotid and extracardiac chemoreceptors, R119
- lung-gill interactions, larval (bullfrog), R770
- mechanoreceptors, lung (lungfish), R418
- ventilatory, carotid and extracardiac chemoreceptors, R119
- Renin plasma activity (marmot), R823
- activity, water deprivation and, awake state, R74
- converting enzyme inhibition and, fetal and newborn (sheep), R249
- water deprivation-induced drinking, R244
- Renin-angiotensin system drinking and secretion of vasopressin, caval constriction, R850
- regulation, brain, R466
- Reproduction, circannual and circadian rhythms, suprachiasmatic nuclei influence on (squirrel), R472
- Resistance cold, sucrose, caffeine, and cola effects, R500
- peripheral, vasopressin and, water deprivation, awake state, R74
- vascular, plasma renin activity and (marmot), R823
- Respiration, cessation of thermoregulation, REM sleep, R114
- Respiratory acidosis: *see* Acidosis
- Respiratory quotient, submandibular sialadenectomy effects, male, R41
- Respiratory regulation, lung-gill interactions, larval, R770
- Rhythms circadian
- central volume expansion, renal response to, R481
- continuous light effects, R573
- lability and diversity of, R338
- wheel-running, sex differences (hamster), R93
- circadian and circannual, suprachiasmatic nuclei influence on (squirrel), R472
- cortisol, origin of (rat, guinea pig, monkey), R514
- free-running, circadian pacemakers (lizard), R857
- locomotor activity, continuous light effects, R573
- sympathetic, baroreceptor interactions, R455
- ultradian, cortisol, origin of (rat, guinea pig, monkey), R514
- Ribs, spaceflight effects, R319
- Risk, low-dose radiation toxicity, R7
- Running: *see* Exercise
- S**
- Saline chronic ingestion, cardiovascular responses, hypothalamic lesions and, R751
- hypertonic, thirst responses, ethanol effects, R568
- infusion, renal response to, night, R481
- Saliva, submandibular sialadenectomy effects, male, R41
- Salivary glands, sodium-chloride secretion, dopamine-stimulated (cockroach), R176
- Salivation, thermoregulatory, dehydration and hyperosmolality, exercise, R516
- Salt absorption, rectal (locust), R131
- appetite cerebrospinal fluid and blood sodium effects (sheep), R810
- deoxycorticosterone effects (hamster), R78
- ingestion, hypothalamic lesions and, R751
- Seasonal cycles, circadian rhythms, lability and diversity of, R338
- Sepsis, experimental, gluconeogenesis in, R794
- Serotonin depletion, thermoregulation and, R299
- metabolism, brain, model, R193, R206
- Sex differences, circadian control, wheel-running activity (hamster), R93
- Shivering, thermogenesis, thermoregulatory (pig), R273
- Shock, endotoxin, β -adrenergic receptor effects, liver, R718
- Shunt, transport, skin, larva (frog), R58
- Sialadenectomy, submandibular, growth after, male, R41
- Similarity principles, data extrapolation and, R591
- Skin larva, nystatin studies of transport (frog), R58
- sodium-chloride absorption (frog), R429
- Sleep, REM, thermoregulation during, R114
- Sodium angiotensin II, forebrain lesions, R45
- blood, salt appetite and (sheep), R810
- concentration, intestine (sea hare), R412
- exchangeable, measurement by neutron

activation, R36
 excretion, central nervous system lesions and, R815
 fecal excretion, deoxycorticosterone effects (hamster), R78
 kinetics, aldosterone effects, arterial wall (porcine), R553
 plasma, deoxycorticosterone effects (hamster), R78
 restriction, dietary, heart rate control and, R264
 retention, deoxycorticosterone effects (hamster), R78
 transport, skin, larva (frog), R58
 Sodium-bicarbonate, intake, salt appetite (sheep), R810
 Sodium chloride
 absorption, body surface (frog), R429
 hypertonic, salt appetite and (sheep), R810
 secretion, dopamine stimulation of, salivary glands (cockroach), R176
 Sodium ions
 absorption, intestine (sea hare), R412
 concentration, water deprivation-induced drinking and, R244
 Sodium-potassium-ATPase
 ionic distribution, salivary glands (cockroach), R176
 transport, chemiosmotic, epithelia (insect), R163
 Solitary tract, area postrema-caudal medial nucleus lesions, body weight and, R577
 Solutes, excretion, thirst and, control of body fluid, R23
 Spaceflight
 bone resorption, mineral excretion and, R327
 lumbar vertebrae histochemistry following, R315
 non-weight-bearing bones and, R319
 periosteal bone formation and, R305
 trabecular bone and, R310
 weightlessness effects, body composition, R332
 Species differences: *see* Comparative physiology
 Splanchnic nerve, nervous pathway, electrophysiological study, R888
 Statistics
 contribution to science, R3
 update, R1
 Steroid hormones, adrenal, angiotensinogen regulation, cerebrospinal fluid and plasma, R466
 Stiggard-Andersen's nomogram, blood buffer system, theoretical analysis, R492
 Stomach
 feeding and postgastric satiety, R872
 gastric emptying, nutrient density and liquid meal effects, R865
 Stress, paraventricular nucleus region, pituitary-adrenal function, R363
 Subfornical organ, acetylcholine injection, drinking and pressor responses after, R508
 Submaxillary gland, tonin and kallikrein release, R228
 Substrates, neural, volume-expanded natriuresis, R51
 Sucrose, metabolism and, R500
 Suprachiasmatic nucleus, rhythms and, circannual and circadian (squirrel), R472

Sympathetic activity, altered, development, diet-induced obesity effects, R347
 Sympathetic nerves
 activity, hypothalamic lesions and, R751
 liver, exercise and hypoglycemia effects, R845
 Sympathetic nervous system
 dietary sodium restriction effects, heart rate control, R264
 discharge, baroreceptor interactions, R455
 fasting and refeeding effects, genetic obesity, R615
 insulin secretion, neural control of, R629
 islet neurotransmitter sensitivity, ventromedial hypothalamic lesion, R635

T

Temperature
 oxygen diffusion and, brain slices, R15
 regulation, *p*-chlorophenylalanine effects, R299
 Temperature, body
 brain, REM sleep, R114
 dependence, circadian pacemaker (hamster), R607
 regulation, heating rate and, tail, R778
 Tetanus, skeletal muscle (anuran), R558
 Tetracycline
 non-weight-bearing bones, spaceflight effects, R319
 periosteal bone formation and, spaceflight, R305
 Thermodynamics
 energy metabolism rate equation, fasting and postabsorption, R764
 living matter, R743
 Thermogenesis
 nonshivering
 glucagon and catecholamine effects (bird), R758
 muscle and brown fat, normal and dystrophic (hamster), R407
 thermoregulatory heat production (pig), R273
 sucrose, caffeine, and cola effects, R500
 Thermoregulation
 cessation of, REM sleep, R114
 dehydration and hyperosmolality effects, exercise, R516
 heat production, thermogenesis in (pig), R273
 weaning and, R537
 Thirst: *see* Drinking
 Thromboxane, production, human vascular tissue, R839
 Thromboxane B₂, cerebrospinal fluid, pyrogen fever, R785
 Thyroid, fasting and refeeding effects, genetic obesity, R615
 Thyroxine
 supplementation, metabolic rate and aerobic capacity (lizard), R659
 weaning and, R537
 Tilting: *see* Posture
 Tissue: *see also* specific type and site
 mineralized, trabecular bone, spaceflight effects, R310
 vascular, thromboxane and prostacyclin production, R839
 Tonin, release, submaxillary gland, R228
 Total body neutron activation analysis, measurement of extracellular space, R36

Trabecular bone: *see* Bone
 Trace metals, fever relations, infection, R368
 Transport: *see* specific subject and site
 Trypsin, cholecystokinin secretion, food intake response, R676
 Trypsin inhibitor, cholecystokinin secretion, food intake response, R676
 Tryptophan, metabolism, brain, model, R193, R206
 Tumor cells, ascites, free fatty acid oxidation, R84
 Tyrosine hydroxylase, diet-induced obesity, altered sympathetic activity, R347

U

Umbilical cord, glucose and lactate extraction, maternal hyperglycemia (sheep), R882
 Urinary bladder, function, impaired, following distension, R106
 Uterus, blood flow: *see* Blood flow

V

Vagus nerve
 area postrema-solitary nucleus lesions, body weight and, R577
 cervical stimulation, heart rate and atrioventricular conduction and (chicken), R235
 hepatic
 afferent activity in, D-glucose anomer effects (guinea pig), R611
 insulin-induced hypoglycemia, R374
 nervous pathway, electrophysiological study, R888
 Vasodilation, heat loss, heating rate control of, tail, R778
 Vasopressin
 arginine
 antidiuretic hormone release, awake state, R487
 ethanol effects, R568
 blood pressure regulation and, water deprivation, awake state, R74
 enkephalin inhibition, brain ventricles, R522
 release, calcium effects, organ culture, R703
 secretion, caval constriction and, R850
 thirst and fluid consumption, ethanol effects, R568
 Vasopressin antagonists, blood pressure regulation and, water deprivation, awake state, R74
 Vena cava, constriction, inappropriate drinking and vasopressin secretion, R850
 Venoconstriction, cardiovascular responses, diving (duck), R292
 Ventilation, reflexes, carotid and extracarotid chemoreceptors, R119
 Ventricles: *see* Cerebral ventricles; Heart ventricles
 Vertebrae, lumbar, spaceflight effects, R315
 Voltage, current analysis, skin, larva (frog), R58
 Volume
 blood
 control of arterial pressure (sea snake), R66
 hypoxia effects, embryo (chicken), R733
 extracellular, preoptic-hypothalamic

Volume (*continued*)

- periventricular lesions, R51
- load: *see* Load
- plasma, deoxycorticosterone effects (hamster), R78
- regulation, brain, hyponatremia, R724
- Volume expansion
 - central, renal response to, night, R481
 - natriuresis, preoptic-hypothalamic periventricular lesions and, R51

W

Water

- body, measurement by neutron activation, R36
- brain and cerebrospinal fluid, hyponatremia, R724
- deprivation
 - dehydration and hyperosmolality, exercise, R516

- drinking and, angiotensin II effects, R244
- kainic acid lesioning, dorsomedial hypothalamus, R389
- vasopressin regulation of blood pressure, awake state, R74
- extracellular, measurement by total body neutron activation, R36
- intake, salt appetite (sheep), R810
- loss, thermoregulatory, dehydration and hyperosmolality effects, exercise, R516
- metabolism, caval constriction and, R850
- regulation, angiotensin II and forebrain lesions, R45
- solute-coupled transport, epithelium (mealworms), R187
- Water vapor, absorption, epithelium (mealworms), R187
- Weaning, control, hormonal influences, R537

Weight

body

- area postrema-solitary nucleus lesions and, R577
- neurotransmitter sensitivity and, R635
- newborn, maternal hormone effects (sheep), R31
- suprachiasmatic nuclei influence on (squirrel), R472

Weightlessness

- body composition and, R332
- non-weight-bearing bones and, spaceflight effects, R319
- periosteal bone formation and, spaceflight, R305
- spaceflight, trabecular bone and, R310

Z

- Zinc, fever relations, infection, R368

ANNOUNCEMENT

Statistics update R1

EDITORIAL

Contribution of statistics to ethics of science
F. E. Yates R3

INVITED OPINION—STATISTICS REPORT #1

The problem of low-dose radiation toxicity
A. S. Iberall R7

MODELING METHODOLOGY FORUM

Diffusion of oxygen in slices of rat brain
L. D. Homer, J. B. Shelton, and T. J. Williams R15

Thirst and solute excretion: their effectiveness in osmotic control of body fluid
E. Szczepańska-Sadowska, W. Niewiadomski, J. Sobocińska, and S. Kozłowski R23

Relationships between maternal hormones and weight of newborn sheep
D. Caton, P. S. Kalra, and C. J. Wilcox R31

Measurement of extracellular space by total body neutron activation
S. Yasumura, S. H. Cohn, and K. J. Ellis R36

Growth and metabolic alterations after submandibular sialadenectomy in male mice
A. K. C. Li, M. E. Schattenkerk, J. E. De Vries, W. D. A. Ford, and R. A. Malt R41

Effect of forebrain lesions on response to chronic intraventricular angiotensin II
G. D. Fink, W. J. Bryan, and M. E. Mann R45

Preoptic-hypothalamic periventricular lesions reduce natriuresis to volume expansion
S. L. Bealer, J. R. Haywood, K. A. Gruber, V. M. Buckalew, Jr., G. D. Fink, M. J. Brody, and A. K. Johnson R51

Nystatin studies of the skin of larval *Rana catesbeiana*
T. C. Cox and R. H. Alvarado R58

Control of arterial pressure in aquatic sea snakes
H. B. Lillywhite and F. H. Pough R66

Role of vasopressin in blood pressure regulation in conscious water-deprived dogs
J. Schwartz and I. A. Reid R74

Sodium retention and salt appetite following deoxycorticosterone in hamsters
D. A. Fitts, O. O. Yang, E. S. Corp, and J. B. Simpson R78

Incomplete free fatty acid oxidation by ascites tumor cells under low oxygen tension
M. Ookhtens and N. Baker R84

Sex differences in the circadian control of hamster wheel-running activity
F. C. Davis, J. M. Darrow, and M. Menaker R93

Impairment and restoration of rat urinary bladder responsiveness following distension
F. G. Carpenter R106

Cessation of thermoregulation during REM sleep in the pocket mouse
J. M. Walker, L. E. Walker, D. V. Harris, and R. J. Berger R114

Ventilatory reflexes originated from carotid and extracarotid chemoreceptors in rats
H. Cardenas and P. Zapata R119

BOOK REVIEW

Biological Timekeeping, edited by J. Brady
O. E. Reynolds

R126

No. 2. FEBRUARY 1983

INVERTEBRATE EPITHELIAL TRANSPORT

Introduction

G. A. Gerencser

R127

Mechanism and control of salt absorption in locust rectum

J. Hanrahan and J. E. Phillips

R131

Electrophysiology of chloride transport in *Aplysia* (mollusk) intestine

G. A. Gerencser

R143

Alanine transport by lobster hepatopancreatic cell suspensions

G. A. Ahearn, E. A. Monckton, A. E. Henry, and M. C. Botfield

R150

Chemiosmotic potassium ion pump of insect epithelia

W. R. Harvey, M. Cioffi, and M. G. Wolfersberger

R163

Ionic distribution in dopamine-stimulated NaCl fluid-secreting cockroach salivary glands

B. L. Gupta and T. A. Hall

R176

Water vapor absorption in insects

J. Machin

R187

MODELING METHODOLOGY FORUM

Model of brain serotonin metabolism. I. Structure determination-parameter estimation

P. Tracqui, P. Brézillon, J. F. Staub, Y. Morot-Gaudry, M. Hamon,
and A. M. Perault-Staub

R193

Model of brain serotonin metabolism. II. Physiological interpretation

P. Tracqui, Y. Morot-Gaudry, J. F. Staub, P. Brézillon, A. M. Perault-Staub,
S. Bourgoïn, and M. Hamon

R206

Relationship between renal phosphate reabsorption and renal brush-border membrane transport

S. A. Kempson, T. J. Berndt, S. T. Turner, D. Zimmerman, F. Knox,
and T. P. Dousa

R216

Effect of hypercapnia and cerebral perfusion pressure on cerebrospinal fluid production in cat

S. R. Heisey, T. Adams, M. J. Fisher, and W. Dang

R224

Release of tonin and of kallikrein by perfused rat submaxillary gland

R. Garcia, G. Thibault, J. Gutkowska, and J. Genest

R228

Effect of cervical vagal stimulation on chicken heart rate and atrioventricular conduction

J. M. Goldberg, M. H. Johnson, and K. D. Whitelaw

R235

Water deprivation-induced drinking in rats: role of angiotensin II

C. C. Barney, R. M. Threatte, and M. J. Fregly

R244

Renal and adrenal responses to converting-enzyme inhibition in fetal and newborn life

J. E. Robillard, D. N. Weismann, R. A. Gomez, N. A. Ayres, W. J. Lawton,
and D. E. VanOrden

R249

Central injection of angiotensin II alters catecholamine activity in rat brain

C. Sumners and M. I. Phillips

R257

Effects of dietary sodium restriction on heart rate control in rats

E. N. Bush and R. R. Vollmer

R264

Thermoregulatory heat production in cold-reared and warm-reared pigs

M. Heath and D. L. Ingram

R273

Humoral and cardiovascular responses to feeding in pigs <i>K. A. Houpt, B. A. Baldwin, T. R. Houpt, and F. Hills</i>	R279
Angiotensin II and bradykinin: interactions between two centrally active peptides <i>R. E. Lewis, W. E. Hoffman, and M. I. Phillips</i>	R285
Role of venoconstriction in the cardiovascular responses of ducks to head immersion <i>B. L. Langille</i>	R292
Effect of <i>p</i> -chlorophenylalanine on thermoregulation in unrestrained rats <i>J. L. Giacchino, E. R. Schertel, J. M. Horowitz, and B. A. Horwitz</i>	R299

No. 3. MARCH 1983

GRAVITATIONAL PHYSIOLOGY

Introduction <i>X. J. Musacchia</i>	R303
Effect of spaceflight on periosteal bone formation in rats <i>T. J. Wronski and E. R. Morey</i>	R305
Effects of spaceflight on trabecular bone in rats <i>W. S. S. Jee, T. J. Wronski, E. R. Morey, and D. B. Kimmel</i>	R310
Quantitative histochemistry of rat lumbar vertebrae following spaceflight <i>J. A. Eurell and L. E. Kazarian</i>	R315
Effect of spaceflight on the non-weight-bearing bones of rat skeleton <i>D. J. Simmons, J. E. Russell, F. Winter, P. Tran Van, A. Vignery, R. Baron, G. D. Rosenberg, and W. V. Walker</i>	R319
Bone resorption and mineral excretion in rats during spaceflight <i>C. E. Cann and R. R. Adachi</i>	R327
Effects of weightlessness on body composition in the rat <i>G. C. Pitts, A. S. Ushakov, N. Pace, A. H. Smith, D. F. Rahlmann, and T. A. Smirnova</i>	R332
<hr/>	
Lability and diversity of circadian rhythms of cotton rats <i>Sigmodon hispidus</i> <i>P. G. Johnston and I. Zucker</i>	R338
Altered sympathetic activity during development of diet-induced obesity in rat <i>B. E. Levin, J. Triscari, and A. C. Sullivan</i>	R347
Atlantic hagfish cardiac muscle: metabolic basis of tolerance to anoxia <i>C. A. Hansen and B. D. Sidell</i>	R356
Paraventricular nucleus region controls pituitary-adrenal function in Brattleboro rats <i>A. J. Baertschi, J.-L. Bény, and G. B. Makara</i>	R363
Relationship of trace metals to fever during infection: are prostaglandins involved? <i>R. J. Tocco, L. L. Kahn, M. J. Kluger, and A. J. Vander</i>	R368
Food intake and peripheral factors after recovery from insulin-induced hypoglycemia <i>M. I. Friedman and J. Granneman</i>	R374
Feeding after recovery from 2-deoxyglucose injection: cerebral and peripheral factors <i>J. Granneman and M. I. Friedman</i>	R383
Aphagia and adipsia after kainic acid lesioning of the dorsomedial hypothalamic area <i>L. L. Bellinger and F. E. Williams</i>	R389
Effect of genetic obesity on the regulation of hepatic fatty acid metabolism <i>M. J. Azain and R. J. Martin</i>	R400
Metabolic organization of muscle and brown fat of normal and dystrophic hamsters <i>S. J. Wickler and B. A. Horwitz</i>	R407
Na ⁺ absorption in <i>Aplysia</i> intestine: Na ⁺ fluxes and intracellular Na ⁺ and K ⁺ activities <i>G. A. Gerencser</i>	R412
Pulmonary mechanoreceptors in the dipnoi lungfish <i>Protopterus</i> and <i>Lepidosiren</i> <i>R. G. DeLaney, P. Laurent, R. Galante, A. I. Pack, and A. P. Fishman</i>	R418

INVITED OPINION

- Sodium chloride absorption across the body surface: frog skins and other epithelia
L. B. Kirschner R429

MODELING METHODOLOGY FORUM

- Kinetics of trace element chromium(III) in the human body
T. H. Lim, T. Sargent III, and N. Kusubov R445
-
- Interactions between baroreceptor and sympathetic pathways
R. B. McCall and S. J. Humphrey R455
- Regulation of angiotensinogen in cerebrospinal fluid and plasma of rats
P. Schelling, S. Müller, and E. Clauser R466
- Suprachiasmatic nuclei influence circannual and circadian rhythms of ground squirrels
I. Zucker, M. Boshes, and J. Dark R472
- Renal response to central volume expansion in humans is attenuated at night
G. G. Krishna and G. M. Danovitch R481
- Suppressed basal antidiuretic hormone release during cyclooxygenase inhibition in conscious dogs
B. R. Walker R487
- Theoretical analysis of "metabolic indices" of blood buffer system
T. Sato, N. Ikeda, H. Tsuruta, and M. Shirataka R492
- Effects of sucrose, caffeine, and cola beverages on obesity, cold resistance, and adipose tissue cellularity
L. J. Bukowiecki, J. Lupien, N. Folléa, and L. Jahjah R500
- Drinking and pressor responses after acetylcholine injection into subfornical organ
M. L. Mangiapane and J. B. Simpson R508
- Possible origin of a 90-min cortisol secretion cycle in rats, guinea pigs, and monkeys
C. P. Richter R514
- Effect of dehydration and hyperosmolality on thermoregulatory water losses in exercising dogs
M. A. Baker, P. A. Doris, and M. J. Hawkins R516
- Cerebroventricular sites for enkephalin inhibition of the central actions of angiotensin
J. Y. Summy-Long, L. C. Keil, G. Sells, A. Kirby, O. Chee, and W. B. Severs R522
- Aerobic response to exercise of the fastest land crab
R. J. Full and C. F. Herreid II R530
- Weaning in the rat: a study of hormonal influences
H. H. Blake and S. J. Henning R537
- Arterial baroreceptor reflex control of heart rate in two species of turtle
G. A. Stephens, H. W. Shirer, J. W. Trank, and K. L. Goetz R544
- Some effects of aldosterone on sodium kinetics and distribution in porcine arterial wall
J. G. Llauro, J. A. Madden, and G. A. Smith R553
- Histochemical, enzymatic, and contractile properties of skeletal muscles of three anuran amphibians
R. W. Putnam and A. F. Bennett R558
- Effects of ethanol ingestion on thirst and fluid consumption in humans
G. Eisenhofer and R. H. Johnson R568
- Splitting of the locomotor activity rhythm in rats by exposure to continuous light
P. W. Cheung and C. E. McCormack R573
- Effects of area postrema/caudal medial nucleus of solitary tract lesions on food intake and body weight
T. M. Hyde and R. R. Miselis R577

EDITORIAL

Biological similarity: what does Huxley's allometric equation tell us?

F. E. Yates

R589

INVITED OPINIONS

Role of similarity principles in data extrapolation

R. Rosen

R591

Scaling of osmotic regulation in mammals and birds

W. A. Calder III and E. J. Braun

R601

Temperature dependence of the hamster circadian pacemaker

F. P. Gibbs

R607

Suppression of afferent activity of the hepatic vagus nerve by anomers of D-glucose

A. Nijima, A. Fukuda, T. Taguchi, and J. Okuda

R611

Metabolic responses to fasting and refeeding in lean and genetically obese rats

N. J. Rothwell, M. E. Saville, and M. J. Stock

R615

Physiological conflict in humans: fatigue vs. cold discomfort

M. Cabanac and J. Leblanc

R621

Neural control of insulin secretion: interaction of norepinephrine and acetylcholine

L. A. Campfield and F. J. Smith

R629

Alteration of islet neurotransmitter sensitivity following ventromedial hypothalamic lesion

L. A. Campfield and F. J. Smith

R635

Dual mechanism for catecholamine secretion in the dogfish shark *Squalus acanthias**D. F. Opdyke, J. Bullock, N. E. Keller, and K. Holmes*

R641

Response of single units in the amygdala to stimulation of buffer nerves in cat

D. F. Cechetto and F. R. Calaresu

R646

Aortic and carotid chemoreceptor responses to metabolic acidosis in the cat

M. Pokorski and S. Lahiri

R652

Effects of thyroxine supplementation on metabolic rate and aerobic capacity in a lizard

H. B. John-Alder

R659

Ketone-glucose interaction in fed, fasted, and fasted-infected sheep

*A. G. Radcliffe, R. R. Wolfe, M. F. Colpoys,
F. Muhlbacher, and D. W. Wilmore*

R667

Food intake response to modulation of secretion of cholecystokinin in Zucker rats

C. L. McLaughlin, S. R. Peikin, and C. A. Baile

R676

Macronutrient self-selection in three forms of hypothalamic obesity

A. Sclafani and P. F. Aravich

R686

Studies on the mechanism of beneficial effects of ATP-MgCl₂ following hepatic ischemia*M. Ohkawa, M. G. Clemens, and I. H. Chaudry*

R695

Role of calcium in osmotic and nonosmotic release of vasopressin from rat organ culture

S. Ishikawa and R. W. Schrier

R703

Mitochondrial ammoniogenesis in liver of the channel catfish *Ictalurus punctatus**J. W. Campbell, P. L. Aster, and J. E. Vorhaben*

R709

Changes in β -adrenergic receptors in dog livers during endotoxic shock*M.-S. Liu and S. Ghosh*

R718

Brain and CSF water and ions during dilutional and isosmotic hyponatremia in the rat

J. E. Melton and E. E. Nattie

R724

Effects of hypoxia on oxygen affinity, hemoglobin pattern, and blood volume of early chicken embryos

R. Baumann, S. Padeken, E.-A. Haller, and T. Brilmayer

R733

INVITED OPINION

Thermodynamics of living matter: physical foundations of biology <i>T. H. Benzinger</i>	R743
<hr/>	
Hypothalamic lesions abolish cardiovascular responses to chronic saline ingestion <i>S. Sasaki and R. D. Buñag</i>	R751
Calorigenic effect of glucagon and catecholamines in king penguin chicks <i>H. Barre and J. L. Rouanet</i>	R758
Energy metabolism rate equation for fasting and postabsorptive subjects <i>M. Ben-Porat, S. Sideman, and S. Bursztein</i>	R764
Reflex interactions between aerial and aquatic gas exchange organs in larval bullfrogs <i>N. H. West and W. W. Burggren</i>	R770
Influence of heating rate on control of heat loss from the tail in mice <i>C. J. Gordon</i>	R778
Prostaglandin E ₂ and thromboxane B ₂ in cerebrospinal fluid of afebrile and febrile cat <i>F. Cocceani, I. Bishai, C. A. Dinarello, and F. A. Fitzpatrick</i>	R785
Regulation of glucose production from lactate in experimental sepsis <i>M. G. Clemens, I. H. Chaudry, P. H. McDermott, and A. E. Baue</i>	R794
Fastigial stimulation in rats releases adrenomedullary catecholamines <i>A. Del Bo, C. A. Ross, J. F. Pardal, J. M. Saavedra, and D. J. Reis</i>	R801
Lowered cerebrospinal fluid sodium antagonizes effect of raised blood sodium on salt appetite <i>A. F. Muller, D. A. Denton, M. J. McKinley, E. Tarjan, and R. S. Weisinger</i>	R810
Sodium excretion following lesions of preoptic recess periventricular tissue in the rat <i>S. L. Bealer</i>	R815
Factors that alter the plasma renin activity of the marmot <i>W. J. Ray and M. L. Zatzman</i>	R823
Simultaneous determination of net uptake of 16 amino acids by a marine bivalve <i>D. T. Manahan, S. H. Wright, and G. C. Stephens</i>	R832
Human vascular tissues produce thromboxane as well as prostacyclin <i>J. Mehta and A. Roberts</i>	R839
Decrease in liver norepinephrine in response to exercise and hypoglycemia <i>W. W. Winder, M. A. Beattie, C. Piquette, and R. T. Holman</i>	R845
Inappropriate drinking and secretion of vasopressin after caval constriction in dogs <i>T. N. Thrasher, M. Moore-Gillon, C. E. Wade, L. C. Keil, and D. J. Ramsay</i>	R850
Circadian pacemakers in lizards: phase-response curves and effects of pinealectomy <i>H. Underwood</i>	R857
Effect of nutrient density and composition of liquid meals on gastric emptying in feeding rats <i>T. J. Kalogeris, R. D. Reidelberger, and V. E. Mendel</i>	R865
Postgastric satiety in the sham-feeding rat <i>R. D. Reidelberger, T. J. Kalogeris, P. M. B. Leung, and V. E. Mendel</i>	R872
Umbilical glucose and lactate extractions during maternal hyperglycemia in sheep <i>S. S. Crandell, P. A. Palma, and F. H. Morriss, Jr.</i>	R882
